ENJOY THE DESERT OF AGAFAY AND ITS REGION ON AN E-BIKE

WELCOME TO OUR E-BIKE ECO VILLAGE

In an exceptional setting in the heart of the Agafay desert, we have installed our eco-base village to welcome you in the best conditions.

We've got it all set up, for your comfort and in the greatest respect of the environment.

Founders Story

Thierry and Jorg on the road to success

Reciprocally insurer and watch designer by trade, Thierry Chardonnes and Jorg Hysek know perfectly the potential of the landscapes around the ochre city of Marrakech.

Both in their sixties, they started this adventure a year ago, with the aim of offering their customers “an authentic and high quality service”.

Offering an eco-responsible, sporty activity, but without the pain, is something that makes sense to them.

Morocco is a fertile ground for the practice of electric mountain biking, which is expected to grow exponentially in the years to come.

The two men decided to be precursors by installing an E-Bike “eco-village” 30 minutes from Marrakech, at the exit of El Keria, in one of the most remote douars of the Agafay desert.

THE E-BIKE CONCEPT

An electric bike is not just a bike. It's a new way of living, moving and having fun. Whether you are an experienced cyclist, occasional or beginner, our electric bikes are made for you!

The bikes get their energy from a battery and a motor to make pedaling much easier. You can also accelerate at the touch of a button, turning cycling from a draining exercise into a fun ride, allowing you to climb hills and ride over difficult ground without burning out.

OUR GUIDES

Having experienced guides is a great advantage because of their experience, their knowledge of the sites and their ability to answer all your questions. By deciding to go on a tour with one of them, you will be accompanied in the best conditions because they master every corner explored. Let yourself be carried along by the expertise of a guide for one or more days, the degree of pleasure will be increased tenfold!

More than a mountain bike ride, our guides will share with you their knowledge of the Moroccan culture, as well as the flora and fauna of the region.

OUR VTT

Our top-of-the-line Swiss-made electric mountain bikes from FLYER, a pioneer in the E-bike industry for 25 years, and our quality services will allow you to enjoy a unique experience in the magnificent Moroccan landscape.

The Uproc4 is the ideal companion for exploring varied terrain thanks to its 140 mm travel and grippy 27.5-inch tires.

The Panasonic GX Ultimate drive unit, which weighs only 2.9 kg, accompanies the effort with power and harmony, even in steep terrain. The intelligently integrated, the high-capacity battery provides the energy needed for extended rides with a significant difference in altitude. These technical capabilities make the Uproc4 a great partner for your excursions.

It will allow you to enjoy a unique experience in the Agafay desert and its breathtaking region.

KEY POINTS

FLYER SIB-750 or
SIB-630 battery

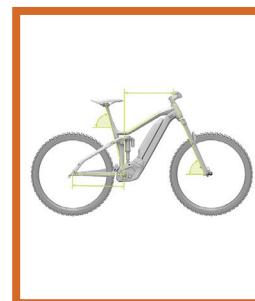

Panasonic GX
Ultimate motor

Battery integration
with vibration-free

FIT display
and remote

Trail riding
geometry

Four-link
suspension

TO THE DISCOVERY

Especially for you, whether you are a couple, a family, a group of friends, an association, a group of company colleagues, we can organize “**customized**” excursions over 1 or more days.

Our guides will propose excursions adapted to your sporting skills so that each participant finds his pleasure.

If necessary, our excursions are accompanied by an assistance vehicle. A well-deserved break ... On the route, in a bucolic setting, we can organize a gourmet Pic Nic to your satisfaction.

The region has many establishments, hostels, quality restaurants or according to your choice a table will be ready to welcome you. On several days, we can also agree with you on hostels, hotels or cottages where you can spend the evening and the night.

OUR EXCURSIONS

HALF-DAY TOURS

LOCATION

Agafay desert, eucalyptus forest and canyons.

DESCRIPTION

Fun and physical activity on the uncharted trails of the reg desert and the eucalyptus forest. Commitment and rhythm, passage on single tracks and off-piste. You have the choice between morning or afternoon.

DAY TRIP

LOCATION

Agafay Desert and its secrets, Lake Lalla Takerkoust and the foothills of the Atlas.

DESCRIPTION

Escape and sensation on the unpublished tracks of the desert of reg in direction of the lake at the foot of the Atlas. Picnic, dinner and night in a charming hotel. This itinerant ride allows you to cross the Agafay desert, discover the first foothills of the Atlas and spend a comfortable night by the lake.

2 DAYS TRIP

LOCATION

Agafay desert, eucalyptus forest, canyons and foothills of the Atlas.

DESCRIPTION

2 days of strong sensations through canyons, eucalyptus forests and the immensity of the desert to reach the lake Takerkoust the first day. The next day, you will cross the N'fis oued, reach the foot of the Atlas and the eco village of Tahanaoute, end of our trip.
